

**Application Forms for Prior Environmental
Clearance as per Environmental Impact
Assessment Notification
dated 14-09-2006 & 01-12-09 & Amendments**

To be submitted

By

**SHRI VIPENDRA SINGH CHOUHAN S/O SHRI ROSHAN
SINGH CHOUHAN**

To

**Madhya Pradesh State Environmental Impact
Assessment Authority (SEIAA)**

APPENDIX - 1**FORM 1****(I) Basic Information**

S.No.	Items	Details
1	Name of the Project/s	Patra Flag Stone Quarry of Shri Vipendra Singh Chouhan S/o Shri Roshan Singh Chouhan
2	S.No.in the schedule	1(a)
3	Proposed capacity/area/length/tonnage to be handled/command area/lease area/ number of wells to be drilled.	Flag Stone Production: 2520M3/Year Lease Area: 1.000 Hectare
4	New/Expansion/Modernization	New
5	Existing Capacity/Area etc.	New Proposal
6	Category of project A or B	B
7	Does it attract the general condition? If yes, please specify	No
8	Does it attract the specific condition? If yes, please specify	No
9	Location	Village- Patra
	Plot/Survey/Khasra No.	42/3
	Village	Patra
	Tehsil	Pathari
	District	Vidisha
	State	Madhya Pradesh
10	Nearest railway station/airport along with distance in kms.	The nearest Railway Station is Khurai which is About 16KMS from mine site. The nearest Airport is Raja Bhoj Airport BHOPAL which is about 56.02 KMS from mine site.
11	Nearest Town, city, District Headquarters along with distance in kms.	The nearest city is Vidisha which is about 34 KMS from mine site. The nearest District Head Quarter is Vidisha which is about 34 KMS from mine site.
12	Village Panchayats, Zilla Parishad, Municipal Corporation, Local body (complete postal addresses with telephone nos. to be given)	Village Panchayat- Patra
13	Name of the applicant	Shri Vipendra Singh Chouhan S/o Shri Roshan Singh Chouhan
14	Registered Address	Village- Patra, Tehsil- Pathari, District- Vidisha (Madhya Pradesh)
15	Address for correspondence	Village- Patra, Tehsil- Pathari, District- Vidisha

		(Madhya Pradesh)												
	Name	Shri Vipendra Singh Chouhan S/o Shri Roshan Singh Chouhan												
	Designation (Owner/Partner/CEO)	Owner												
	Address	Village- Patra, Tehsil- Pathari, District- Vidisha (Madhya Pradesh)												
	Pin code	464001												
	E-mail	e.nvironmentclearance2019@gmail.com												
	Telephone No.	7869322224												
	Fax No.	No Fax												
16	Details of Alternative Sites examined, if any. Location of these sites should be shown on a topo sheet.	<table border="1"> <thead> <tr> <th>Village</th> <th>Distict</th> <th>State</th> </tr> </thead> <tbody> <tr> <td>NA</td> <td>NA</td> <td>NA</td> </tr> <tr> <td>NA</td> <td>NA</td> <td>NA</td> </tr> <tr> <td>NA</td> <td>NA</td> <td>NA</td> </tr> </tbody> </table>	Village	Distict	State	NA	NA	NA	NA	NA	NA	NA	NA	NA
Village	Distict	State												
NA	NA	NA												
NA	NA	NA												
NA	NA	NA												
17	Interlinked Projects	NA												
18	Whether separate application of interlinked project has been submitted?	NA												
19	If yes, date of submission	NA												
20	If no, reason	NA												
21	Whether the proposal involves approval/clearance under: if yes, details of the same and their status to be given. (a) the Forest (Conservation) Act, 1980 ? (b) The Wildlife (Protection) Act, 1972 ? (c) the C.R.Z. Notification, 1991 ?	NA												
22	Whether there is any Government Order/policy relevant/relating to the site?	NA												
23	Forest land involved (Hectares)	NA												
24	Whether there is any litigation pending against the project and/or land in which the project is propose to be set up? (a) name of the Court (b) Case No. (c) Orders/direction of the Court, if any and its relevance with the proposed project.	NA												

(II) Activity

1. Construction, operation or decommissioning of the Project involving actions, which will cause physical changes in the locality (topography, land use, changes in water bodies, etc.)

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities/rates, wherever possible) with
------	------------------------------------	----------	---

			source of information data
1.1	Permanent or temporary change in land use, land cover or topography including increase in intensity of land use (with respect to local land use plan)	Yes	Topographically the sanctioned Quarry lease area is part of mound having elevation of 434m. The local slope of the area is radial and all nearby dendrites are meeting toward the north direction. The permanent change in land use within the lease area is due to mining.
1.2	Clearance of existing land, vegetation and buildings?	No	There is no building & structure which need to be demolished/ removed from mining lease area except some natural vegetations (shrub) existing in the lease area which will be cleared as and when required.
1.3	Creation of new land uses?	Yes	Creation of land in the form of pits and dumps due to mining activity. Stabilization of dump will be done by growing vegetation over it.
1.4	Pre-construction investigations e.g. bore holes, soil testing?	No	NA
1.5	Construction works?	No	None
1.6	Demolition works?	No	None
1.7	Temporary sites used for construction works or housing of construction workers?	No	No need for construction of housing of workers. The laborer will come from the nearby villages.
1.8	Above ground buildings, structures or earthworks including linear structures, cut and fill or excavations	No	NA
1.9	Underground works including mining or tunneling?	No	NA
1.10	Reclamation works?	No	No
1.11	Dredging?	No	NA
1.12	Offshore structures?	No	NA
1.13	Production and manufacturing processes?	Yes	Semi Mechanized method of mining will be adopted for open cast mining.
1.14	Facilities for storage of goods or materials?	Yes	Storage facility for mineral and goods is available in the mine area.
1.15	Facilities for treatment or disposal of solid waste or liquid effluents?	Yes	Solid waste like lump, grit is disposed of at earmarked dump site as per approved mining plan. There is no liquid effluent discharge from the lease area.
1.16	Facilities for long term housing of operational workers?	No	The mine workers will be from nearby villages so no long term housing facility is required.
1.17	New road, rail or sea traffic during construction or operation?	No	There will be no new rail or sea traffic. Roads are already available for transportation of mineral and machinery in the area.

1.18	New road, rail, air waterborne or other transport infrastructure including new or altered routes and stations, ports, airports etc?	No	There will be no new road, rail, air, waterborne transport infrastructures required for the project.
1.19	Closure or diversion of existing transport routes or infrastructure leading to changes in traffic movements?	No	No
1.20	New or diverted transmission lines or pipelines?	No	NA
1.21	Impoundment, damming, culverting, realignment or other changes to the hydrology of watercourses or aquifers?	No	No
1.22	Stream crossings?	No	NA
1.23	Abstraction or transfers of water from ground or surface waters?	No	Total Water requirement estimated is about 2.7 KLD for mining, spraying and domestic uses and will be sourced from nearby village.
1.24	Changes in water bodies or the land surface affecting drainage or run-off?	No	No change in water bodies, drainage or runoff is anticipated.
1.25	Transport of personnel or materials for construction, operation or decommissioning?	Yes	Mine workers will be from nearby villages and will come by own means hence does not require any transport. Materials will be transported by vehicles.
1.26	Long-term dismantling or decommissioning or restoration works?	No	NA
1.27	Ongoing activity during decommissioning which could have an impact on the environment?	No	There will be no decommissioning activity.
1.28	Influx of people to an area in either temporarily or permanently?	Yes	About 05 people will get employment. Most of the people will be employed from nearby villages.
1.29	Introduction of alien species?	No	Local species will be planted.
1.30	Loss of native species or genetic diversity?	Yes	Due to mining activity some grasses & shrubs will be removed.
1.31	Any other actions?	No	NA

2. Use of Natural resources for construction or operation of the Project (such as land, water, materials or energy, especially any resources which are non-renewable or in short supply):

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities/rates, wherever possible) with source of information data
2.1	Land especially undeveloped or agricultural land (ha)	Yes	The applied area is Private Land.

2.2	Water (expected source & competing users) unit: KLD	Yes	2.7 KLD water will be used and will be procured from nearby villages.
2.3	Minerals (MT)	Yes	Flag Stone Production: 2520 M3/Year
2.4	Construction material - stone, aggregates, sand/ soil (expected source - MT)	No	NA
2.5	Forests and timber (source - MT)	No	NA
2.6	Energy including electricity and fuels (source, competing users) Unit: fuel (MT), energy (MW)	No	No electricity is required.
2.7	Any other natural resources (use appropriate standard units)	No	NA

3. Use, storage, transport, handling or production of substances or materials, which could be harmful to human health or the environment or raise concerns about actual or perceived risks to human health.

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities /rates, wherever possible) with source of information data
3.1	Use of substances or materials, which are hazardous (as per MSIHC rules) to human health or the environment (flora, fauna, and water supplies)	No	NA
3.2	Changes in occurrence of disease or affect disease vectors (e.g. insect or water borne diseases)	No	NA
3.3	Affect the welfare of people e.g. by changing living conditions?	Yes	Welfare activity due to mining will change the living of people belongs to nearby villages this will include employment opportunity.
3.4	Vulnerable groups of people who could be affected by the project e.g. hospital patients, children, the elderly etc.,	No	NA
3.5	Any other causes	No	None

4. Production of solid wastes during construction or operation or decommissioning (MT/month)

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities/rates, wherever possible) with source of information data
4.1	Spoil, overburden or mine wastes	Yes	Thin layer of OB will be scrapped ahead of working in Flag Stone formation and this thin layer of OB is consider under waste and it will

			be used for making and maintenance of approach road.
4.2	Municipal waste (domestic and or commercial wastes)	No	No municipal waste will be generated. Waste water from office toilet will be discharged into the soak pits.
4.3	Hazardous wastes (as per Hazardous Waste Management Rules)	No	No hazardous waste will be generated.
4.4	Other industrial process wastes	No	None
4.5	Surplus product	No	None
4.6	Sewage sludge or other sludge from effluent treatment	No	No effluent will be generated.
4.7	Construction or demolition wastes	No	NA
4.8	Redundant machinery or equipment	No	NA
4.9	Contaminated soils or other materials	No	No Contaminated of soils or other materials will occur during mining operations.
4.10	Agricultural wastes	No	NA
4.11	Other solid wastes	No	NA

5. Release of pollutants or any hazardous, toxic or noxious substances to air (Kg/hr)

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities/rates, wherever possible) with source of information data
5.1	Emissions from combustion of fossil fuels from stationary or mobile sources	Yes	Mostly mobile equipments and their expected emission will be very less and will have less impact.
5.2	Emissions from production processes	Yes	The production process will involve excavation and loading which will generate emissions and will cause little impact.
5.3	Emissions from materials handling including storage or transport	Yes	From the handling & transport of the mineral, fugitive dust will be generated, which will be controlled by water sprinkling on haul roads, and dusty areas.
5.4	Emissions from construction activities including plant and equipment	No	No construction activities will be required.
5.5	Dust or odours from handling of materials including construction materials, sewage and waste	No	Not envisaged.
5.6	Emissions from incineration of waste	No	NA
5.7	Emissions from burning of waste in open air (e.g. slash materials, construction debris)	No	No material waste will be burnt in open air.

5.8	Emissions from any other sources	No	None
-----	----------------------------------	----	------

6. Generation of Noise and Vibration, and Emissions of Light and Heat:

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities/rates, wherever possible) with source of information data
6.1	From operation of equipment e.g. engines, ventilation plant, crushers	Yes	Noise from operation of drill machine, excavation, dumpers etc. Their expected emission will be very less and will have less impact.
6.2	From industrial or similar processes	No	NA
6.3	From construction or demolition	No	No construction and demolition work will be carried out in mining activity.
6.4	From blasting or piling	Yes	No conventional blasting is being practiced in routine. Very occasionally blasting will be used for removal of hard capping of overburden when ever encountered.
6.5	From construction or operational traffic	Yes	During operational stage running of dumpers will produce very less noise, which will not cause any impact.
6.6	From lighting or cooling systems	No	NA
6.7	From any other sources	No	NA

7. Risks of contamination of land or water from releases of pollutants into the ground or into sewers, surface waters, groundwater, coastal waters or the sea:

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities /rates, wherever possible) with source of information data
7.1	From handling, storage, use or spillage of hazardous materials	No	No hazardous material storage or handling is envisaged.
7.2	From discharge of sewage or other effluents to water or the land (expected mode and place of discharge)	No	There will be no discharge of sewage or other effluents from the mining lease.
7.3	By deposition of pollutants emitted to air into the land or into water	No	NA
7.4	From any other sources	No	NA
7.5	Is there a risk of long term build up of pollutants in the environment from these sources?	No	None

8. Risk of accidents during construction or operation of the Project, which could affect human health or the environment

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities/rates, wherever possible) with source of information data
8.1	From explosions, spillages, fires etc from storage, handling, use or production of hazardous substances	No	NA
8.2	From any other causes	No	None
8.3	Could the project be affected by natural disasters causing environmental damage (e.g. floods, earthquakes, landslides, cloudburst etc)?	No	As per the Bureau of Indian Standards (BIS) map, Madhya Pradesh falls under seismic zone II & III. The area is not prone to flood and earthquake. No such incident is reported in this area so far.

9. Factors which should be considered (such as consequential development) which could lead to environmental effects or the potential for cumulative impacts with other existing or planned activities in the locality

SNo.	Information/Checklist confirmation	Yes / No	Details thereof (with approximate quantities/rates, wherever possible) with source of information data
9.1	Lead to development of supporting utilities, ancillary development or development stimulated by the project which could have impact on the environment e.g.: Supporting infrastructure (roads, power supply, waste or waste water treatment, etc.) housing development extractive industries supply industries other	No	It is not anticipated to develop the supporting facilities or ancillary development of such extent to impart any adverse effect/ impact on the environment. The project will improve the socio-economic status of villages around the mine area. The project will also benefit the local people by generating the employment.
9.2	Lead to after-use of the site, which could have an impact on the environment	Yes	The impact will be positive. Proposed green development will enhance the aesthetic beauty of the area and the abandoned pit will be used for rain water harvesting.
9.3	Set a precedent for later developments	No	NA
9.4	Have cumulative effects due to proximity to other existing or planned projects with similar effects	No	NA

(II) Environmental Sensitivity

S. No.	Areas	Name / Identity	Aerial distance (within 15 km.) Proposed project location boundary
1	Areas protected under international conventions, national or local legislation for their ecological, landscape, cultural or other related value	No	Not affecting any parameter.
2	Areas which are important or sensitive for ecological reasons - Wetlands, watercourses or other water bodies, coastal zone, biospheres, mountains, forests	No	Not present in the nearby areas of the mine site.
3	Areas used by protected, important or sensitive species of flora or fauna for breeding, nesting, foraging, resting, over wintering, migration	No	NA
4	Inland, coastal, marine or underground waters	No	NA
5	State, National boundaries	No	NA
6	Routes or facilities used by the public for access to recreation or other tourist, pilgrim areas	No	NA
7	Defence installations	No	NA
8	Densely populated or built-up area	Yes	Village Patra is 1.00KMS from mine site.
9	Areas occupied by sensitive man-made land uses(hospitals, schools, places of worship, community facilities)	Yes	Village Patra is 1.00KMS mine site.
10	Areas containing important, high quality or scarce resources(ground water resources, surface resources, forestry, agriculture, fisheries, tourism, minerals)	No	NA
11	Areas already subjected to pollution or environmental damage. (those where existing legal environmental standards are exceeded)	No	No critically polluted areas are located within 10 km radius as declared by CPCB.
12	Areas susceptible to natural hazard which could cause the project to present environmental problems(earthquakes, subsidence, landslides, erosion, flooding or extreme or adverse climatic conditions)	No	As per the Bureau of Indian Standards (BIS) map, Madhya Pradesh falls under seismic zone II & III. The area is not prone to flood and earthquake. No such incident is reported in this area so far.

UNDERTAKING

I hereby given undertaking that the data and information given in the application and enclosures are true to best of my knowledge and behalf and I am aware that if any part of data and information submitted is found to be false or misleading at any stage the project will be rejected and clearance given, if any to the project will be revoked at our risk and cost.

DATE: 25-JAN-19

SIGNATURE OF APPLICANT

SHRI VIPENDRA SINGH CHOUHAN S/O SHRI ROSHAN SINGH CHOUHAN

RESIDENCE: Village- Patra, Tehsil- Board, District- Vidisha (MP)

DESIGNATION: Owner

CONTACT NO.- 7869322224

NOTE:

1. All correspondence with the State Environmental Impact Assessment Authority including Submission of application for TOR/Environmental Clearances, subsequent Clarifications as may be required from time to time, participation in the DEAC Meeting on behalf of the project proponent shall be made by the authorized signatory only. The authorized signatory should also submit a document in support of his claim of being an authorized signatory or the specific project.
