Water shall be consumed for domestic and gardening purposes only. Fresh water shall be withdrawn from the adjacent sweet water lake developed by the proponent. Permission has been obtained from the Dandi Gram Panchayat to construct and maintain the lake. Sewage shall be treated in an adequately designed Sewage Treatment Plant (STP) and shall be reused for the gardening purposes. There shall be no air pollution sources. Domestic solid waste shall be generated which will be disposed off by Dandi Gram Panchayat and the STP sludge shall be Reused as Organic manure within the premises. No Hazardous waste shall be generated. The project shall be developed keeping in mind the eco-friendly concepts using eco-friendly building materials, water and energy conservation measures.

A detailed CEIA report has been prepared which covers all the project details, baseline data of existing environmental scenario, identification, prediction & evaluation of impacts, mitigation measures, environmental management plan, post project monitoring etc.

We are submitting herewith our CEIA report along with Form I, relevant annexures and permissions.

We hope above details for the proposed project is in line with your requirement and request you to consider our application and give us an early date for presentation.

Thanking you.

Yours truly,

**For Hitarth Developers LLP**

**Ashok Dalal**
